BIBLO UNO

Exposed cistern for low or medium position installations.

DESCRIPTION

BIBLO UNO exposed flush cistern is suitable for low- or medium-position installations.

BIBLO UNO is made with an anti-ageing ABS body and is equipped with a side button for flushing with the possibility of interruption.

KARIBA exposed cisterns are equipped with a fast and silent float valve with various water connection possibilities.

Each cistern is produced with top quality materials and with components 100% tested in production with water supply.

EN 14055 CL1 - 9 - NL I - VR II regulation.

FEATURES

Features and plus
